

## pure colours

Colours leave a strong impact on human moods and emotions. The feeling of freshness, coolness or love/passion are just a few examples of how colours may influence our daily lives. Colours not only reflect your style but also speak up about your moods and emotions.

21 of our standard colours do cater for needs of the most demanding product designers. Need more? A completely new colour palette, in both single and multilayered technology, can be manufactured at our plant.

# clear glass

Clear glass will make a stylish statement. Artistically engraved and sandblasted shades will brighten any interior.

# opal glass

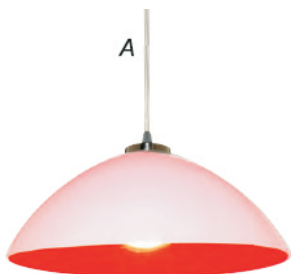

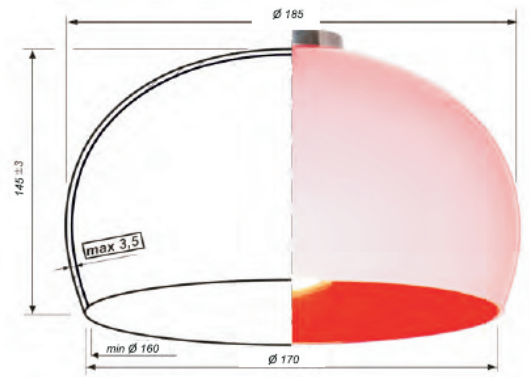

Most frequently manufactured type of lampshade creating warm and calming atmosphere. Manufacturing capabilities include both glossy and satinated white.

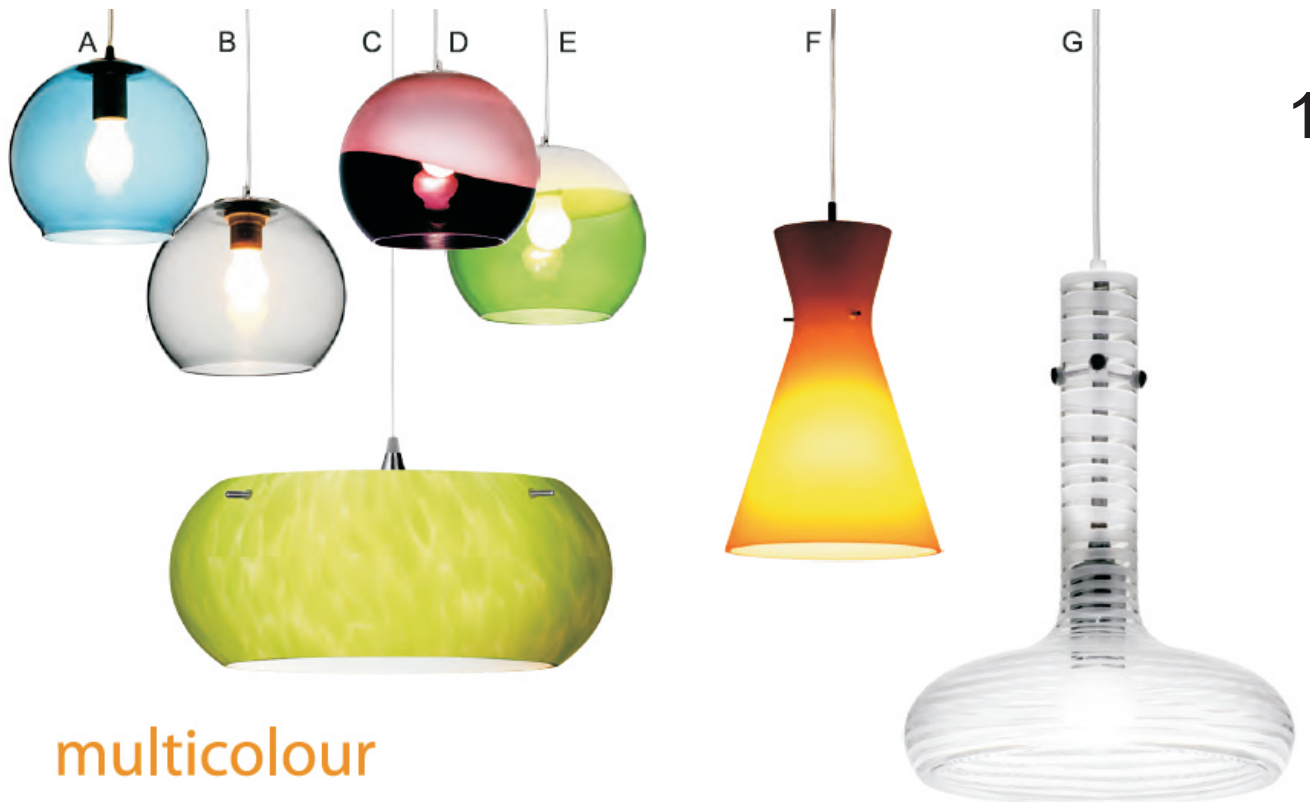

**multi layered**

Layered glass lampshades can be manufactured to fit tableware of your choice to create eye-catching focus zones in living spaces, suiting both a hotel conference and a well designed home.

## multicolour

Presented colour impressions are only a few examples of decors we create and we do encourage designers to enquire about our techniques and capabilities including melted colours, powder, grains, spray and hand paintings.
